AMERICAN PAINTINGS AND SCULPTURE

The following list is reprinted from the Annual Report for 1905 and 1906, with changes made necessary by recent additions. It was prepared by George H. Story in consultation with the following Trustees: Frederick Dielman, then President of the National Academy of Design, Daniel Chester French, and Robert W. de Forest.

It contains the names of some of the best-known deceased American artists who either are not at all or are not adequately represented in the Museum collections. It is believed that the Museum should have in its galleries at least one or two distinctly characteristic pictures of those artists who represent historically the development of American painting. There are included in the list those artists who are now represented, it may be, by several pictures, but of whom the Museum would be glad to have one or more works which may be distinctly classed as masterpieces. What the Museum desires is quality rather than quantity. This list is tentative and not inclusive. The more important names are indicated with an asterisk:
